Project Name : Local-Pro SDLC PROJECT

Project Url : <https://tinyurl.com/2b86td5b>

Description : Developed a modern and fully responsive local services booking website inspired by platforms like Urban Company, featuring a clean and user-friendly interface to improve customer engagement and service accessibility. Designed a transparent navigation bar with contact details and social media integration, along with an engaging hero section featuring professional branding, service highlights, and strong action buttons. Implemented interactive UI components including custom service cards, hover animations, smooth scrolling effects, and responsive layouts for seamless performance across desktop and mobile devices. Focused on modern typography, balanced color schemes, accessibility, and optimized user experience to create a professional and trustworthy online service platform. Technologies Used: HTML5, CSS3, JavaScript, Responsive Web Design.

Project Name : AI-Powered Digital Solutions

Project Url : <https://tinyurl.com/29ty9jn9>

Description : Developed a modern and responsive AI-powered landing page with a clean UI and smooth user experience. Designed and implemented a transparent navigation bar, hero section with animated gradient background, call-to-action buttons, and interactive scroll-down effects. Added custom card components, rating widgets, and hover animations to enhance visual appeal.

Project Name : FITLN

Project Url : <https://tinyurl.com/265e895k>

Description : Designed and developed a fully responsive Fitness Landing Page with a bold, modern website. Implemented high-contrast color combinations, hero banner images, animated text, and smooth section transitions. Added custom navigation, program highlights, membership statistics, trainer showcase, and interactive call-to-action buttons for an engaging user experience.

Project Name : Beacon One

Project Url : <https://tinyurl.com/y647j53t>

Description : Developed a clean, elegant, and fully responsive Real Estate Investment landing page for Beacon One Capital. The design focuses on clear typography, a soft color palette, and smooth section spacing to create a premium, professional look. Implemented a hero section with a strong headline, subtext explaining the company vision, and a call-to-action button. Navigation includes multiple pages like Philosophy, Asset Classes, and About Us with a modern button style.

Project Name : NFTX

Project Url : <https://tinyurl.com/26575s4c>

Description : Nftx is a modern and fully responsive NFT landing page developed using HTML5

CSS3 and JavaScript. The project focuses on creating an engaging user interface for exploring collecting and showcasing digital NFT artworks. The homepage features a clean dark themed layout with a hero banner navigation menu interactive buttons and futuristic character illustrations to deliver an immersive digital art experience. Modern typography balanced spacing and strong color contrast improve the overall visual appeal and user experience. Key features include responsive design smooth hover effects modern UI sections interactive elements and optimized layout structure for desktop and mobile devices.

.....

Project Name : WordPress Home Décor Website Project

Project Url :

Description : Designed and developed a modern and fully responsive Home Décor eCommerce website using WordPress and Elementor. Created clean UI layouts with product categories, hero banners, navigation menus, and promotional sections. Customized the website using HTML, CSS, and basic JavaScript for better responsiveness and user experience. Implemented WooCommerce features for product display and shopping functionality.

.....

Project Name : Real Estate Website Project

Project Url :

Description : Designed and developed a modern Real Estate Agency website using WordPress and Elementor with a premium and responsive UI design. Created custom landing pages featuring property showcase sections, hero banners, navigation menus, and call-to-action buttons. Used HTML, CSS, and JavaScript to improve styling, responsiveness, and user interaction. Focused on clean layout structure, modern typography, and smooth user experience across all devices.

EXPERIENCE/S

17/07/2025 -

Company : Webskitters technology solutions private limited

Designation : Internship Training

Description : Completed hands-on internship training focused on modern front-end development. Gained practical experience in building responsive websites using HTML, CSS, and JavaScript. Developed multiple real-world UI projects and improved understanding of layouts, components, animations, and clean code structure.
